University of California, Irvine — Master of Computer Science — GPA: 4.0 [Irvine, CA, USA] Sept 2023 - Dec 2024
Vellore Institute of Technology — B.Tech Computer Science and Engineering [Vellore, India] July 2016 - June 2020

SKILLS	
Languages/Scripts	Python, C#, ASP .Net, Powershell, SQL, HTML, Bash, JAVA, Javascript
Tools/Libraries	Kubernetes, Docker, Databricks, Terraform, Postman, Azure DevOps, AWS S3, Lambda, Azure Cloud, YAML, Git, Jenkins, PySpark, OpenCV, Numpy, Pandas, NLTK, Django, Vulnerability Management
Cloud Stack	Azure PaaS(Storage Accounts/Function Apps/Web Apps/Event Hubs/Service Bus/Log Analytics, Azure IaaS (Virtual Machine/ Virtual Machine Scale Set/ Azure Kubernetes/Container Instances, SQL Servers)

EXPERIENCE	
Deloitte — Senior Consultant — Cloud Infra and Security Team — Seattle, WA	Jan 2025 - Present
– Developed IDP migration accelerators to replicate applications, users, groups, and policies across Entra ID and External ID tenants, accelerating identity modernization timelines by 76%, reducing manual migration effort by 70%, and improving deployment consistency across environments	
– Led Okta-to-Microsoft Entra ID migration for 2,000+ enterprise applications and 120K+ identities, implementing Power BI governance dashboards and SharePoint reporting, improving executive visibility and reducing migration tracking effort by 50%	
– Implemented enterprise-wide AI security, governance, and compliance frameworks, including red-teaming agents, Agent365, model guardrails, and policy-driven monitoring for Copilot Studio, Microsoft Foundry, Purview, reducing AI security risks by 45% and enabling compliant AI adoption across 5+ business units	
– Spearheaded rollout of Microsoft Entra External ID with JIT migration, MFA, Native Authentication, WAF, monitoring, and alerting, enabling secure external identity onboarding for 50K+ users and reducing authentication-related security incidents by 35%	
– Architected and built a MCP server integrated with Azure Kubernetes Service to enable secure Microsoft Graph API operations, and developed a Copilot agent for real-time Entra ID queries, reducing identity investigation and administrative effort by 60% and accelerating incident response time by 2x	
– Led development and deployment of AI-driven enterprise workflows and Copilot agents for 150K+ active users across SharePoint, Outlook, and Teams reducing manual operational effort by 40% and improving response time by 3x	

ZS Associates — (Associate Consultant Intern) — Cloud and Big Data Team — Philadelphia, PA	Jun 2024 - Aug 2024
– ETL Workflow Overhaul: Converted 3000 Parquet tables to Delta tables using Apache Spark and Databricks, leveraging Delta’s ACID transactions, scalable metadata handling, and batch data processing to enhance data management efficiency	
– Built a custom Docker image for Databricks clusters with preinstalled custom packages, reducing cluster run time by 14% by avoiding runtime installations.	
– Implemented Unity Catalog in Databricks for unified governance, utilizing Azure Data Lake Storage (ADLS) for secure and compliant data management through fine-grained access controls and audit logging.	

University of California, Irvine — (Data & Tech Fellow) — Prof. Tom Andriola — Irvine, CA	Jan 2024 - Dec 2024
– Engineered hybrid identity infrastructure with Application Proxy, Entra ID Connect, F5 load balancing, firewall, DNS routing, and HRD policies for seamless authentication	

Deloitte — Cyber Security Solution Advisor — Cloud Infrastructure Team — Gurugram, IN	Aug 2020 - Sep 2023
– Engineered an Automated M365 and Multi-Cloud Security Assessment Tool to evaluate cross-tenant resources and identities against NIST/CIS frameworks, reducing manual efforts by 78% and improving risk detection by 35%	
– Overhauled Identity and Access Management for PaaS Databases and Kubernetes Clusters, automating Azure AD group creation and mapping to RBAC roles based on custom configuration rules	
– Architected and deployed Zero Trust security within Azure, integrating Azure AD/Entra ID governance, RBAC, identity lifecycle management, and conditional access policies to enforce access control and compliance	
– Designed and implemented Azure-based solutions, including a Video Conferencing Platform (VMSS, App Service, Cosmos DB) and a Secure SSO System (App Service, Redis Cache, Application Gateway)	
– Built ETL workflows with Azure Synapse and Azure SQL for enterprise data analysis and Power BI dashboards, and developed an Azure DevOps extension to pre-scan Terraform templates for compliance and security
