University of California, Irvine — Master of Computer Science — GPA: 4.0 [Irvine, CA, USA] Sept 2023 - Dec 2024
Vellore Institute of Technology — B.Tech Computer Science and Engineering [Vellore, India] July 2016 - June 2020

SKILLS

Languages/Scripts	Python, C#, ASP .Net, PowerShell, SQL, HTML, Bash, Java, JavaScript
Security & DevSecOps	CSPM, CWPP, CIEM, SIEM Integration, Zero Trust, IAM/RBAC, Conditional Access, Vulnerability Management, Red-Teaming, Defender for Cloud, Sentinel, Microsoft Purview, CIS Benchmarks, NIST, MCSB
Tools/IaC	Terraform, Bicep, Docker, Kubernetes (AKS), Azure DevOps, Jenkins, Databricks, Postman, Git, AWS S3/Lambda, PySpark, OpenCV, Pandas, NLTK, Django
Cloud Stack	Azure (PaaS/IaaS: Storage, Function Apps, Web Apps, Event Hubs, Service Bus, Log Analytics, VMSS, AKS, Container Instances, SQL Servers, Cosmos DB, Redis Cache, Key Vault), AWS (S3, Lambda), Multi-Cloud Security Architecture

EXPERIENCE

Deloitte — Senior Consultant — Cloud Infra and Security Team — Seattle, WA Jan 2025 - Present

- Architected and operated **cloud security controls** across **IaaS, PaaS, and SaaS environments**, deploying **CSPM, CWPP, and CIEM** solutions integrated with **Microsoft Sentinel (SIEM/SOC)** for unified threat detection, logging, and alerting, improving **risk detection coverage by 45%**
- Led **Okta-to-Microsoft Entra ID migration** for **2,000+ enterprise applications and 120K+ identities**, designing **IAM role structures, privileged access controls, and conditional access policies** aligned to **Zero Trust** principles, reducing **authentication-related incidents by 35%**
- Developed **IDP migration accelerators** using **Terraform and PowerShell** to replicate **applications, users, groups, and policies** across **Entra ID tenants**, enforcing **infrastructure-as-code security guardrails** and accelerating **deployment consistency by 76%**
- Implemented enterprise-wide **AI security governance and compliance frameworks**, including **red-teaming agents, model guardrails, and policy-driven monitoring** via **Microsoft Purview and Defender for Cloud**, reducing **misconfiguration and compliance risks by 50%** across **5+ business units**
- Architected and built an **MCP server on Azure Kubernetes Service** with **network segmentation, private connectivity, and secrets management** via **Azure Key Vault**, enabling secure **Microsoft Graph API operations** and reducing **identity investigation effort by 60%**
- Participated in **Architecture Review Board**, defining **cloud security reference designs, guardrails, and standards** for **CI/CD pipelines and IaC deployments**; deployed **Azure Policy controls** achieving **100% compliance** across production environments

ZS Associates — (Associate Consultant Intern) — Cloud and Big Data Team — Philadelphia, PA Jun 2024 - Aug 2024

- ETL Workflow Overhaul: Converted **3000 Parquet tables to Delta tables** using **Apache Spark and Databricks**, leveraging Delta's ACID transactions, scalable metadata handling, and batch data processing to enhance data management efficiency
- Built a **custom Docker image** for Databricks clusters with preinstalled custom packages, reducing cluster run time by 14% by avoiding runtime installations.
- Implemented **Unity Catalog** in Databricks for unified governance, utilizing Azure Data Lake Storage (ADLS) for secure and compliant data management through fine-grained access controls and audit logging.

University of California, Irvine — (Data & Tech Fellow) — Prof. Tom Andriola — Irvine, CA Jan 2024 - Dec 2024

- Engineered **hybrid identity and network security infrastructure** with **Application Proxy, Entra ID Connect, F5 load balancing, firewall rules, DNS routing, and HRD policies** for seamless and secure authentication across enterprise environments

Deloitte — Cyber Security Solution Advisor — Cloud Infrastructure Team — Gurugram, IN Aug 2020 - Sep 2023

- Engineered an **Automated M365 and Multi-Cloud Security Assessment Tool** evaluating cross-tenant resources, network configurations, and identities against **NIST/CIS Benchmarks**, reducing manual effort by **78%** and improving **risk detection and misconfiguration remediation by 35%**
- Overhauled **IAM for PaaS Databases and Kubernetes Clusters**, automating **Azure AD group creation, RBAC role mapping, privileged access controls, and identity lifecycle management** via custom configuration-driven pipelines
- Architected **Zero Trust security in Azure**, integrating **network segmentation, firewall policies, private connectivity, Entra ID governance, conditional access, and encryption/key management** to enforce compliance at scale
- Designed **Azure-based cloud solutions** with secure networking, including a **Video Conferencing Platform** (VMSS, App Service, Cosmos DB) and a **Secure SSO System** (App Service, Redis Cache, Application Gateway, WAF)
- Developed an **Azure DevOps extension** to pre-scan **Terraform IaC templates** for security misconfigurations and compliance violations, integrating findings into **SIEM workflows** and **Power BI dashboards** for executive reporting
